

# Residential Knox Box

45745 W. Six Mile Rd. • Northville, MI 48168 • Phone (248) 348-5807 • Fax (248) 348-5840

We would like to let you know about a product that can help to provide peace of mind for those living alone. A KNOX-BOX® is a secured lock box that hangs directly over the door to your home. This lock box is only accessible by the Northville Township Fire Department using our department's unique master key. For the past several years, we have installed KNOX-BOX® products in commercial properties in our community with great success. We are now happy to announce that we can offer this service to our residential properties as well. These lock boxes allow our emergency responders to gain quick access to your home without causing any damage. We simply use our master key to access the box hanging from your door and retrieve your house keys stored inside. This provides a quicker and more efficient service to our citizens whether you call for assistance for a fire, a medical emergency or any other request for assistance.

Any resident who wants to feel more secure living in their home would benefit from the installation of a residential KNOX-BOX®, especially those citizens with a history of health problems, residents

living alone or residents utilizing a medical alert system. In the event of an emergency, responders will be advised by our dispatch center that a residential KNOX-BOX® is installed on the premises. Upon arrival, responders will utilize our master key to gain access to your key box, retrieve your keys, and provide the necessary

emergency services. After the emergency, responders can lock up your home and place the keys back in your KNOX-BOX®.

We currently offer two different programs for those residents or their family members who want the peace of mind of knowing that emergency responders can provide immediate assistance at the turn of a key. The first program is a purchase program to suit your long term needs. You can purchase a unit for \$205.00, including shipping and handling. All purchases are made through the Knox Company with signed authorization by our department. The second program is a loan program to help those that require short term assistance. This program is great for those recovering from short term injuries or illnesses. For both programs the Northville Township Fire Department will meet you at your home and install the unit free of charge.

## LOAN PROGRAM

We now offer a residential KNOX-BOX® Loan program. This program is financed completely by donations and will allow residents to utilize a unit, free of charge, for a 90 day period while recovering from medical procedures or injuries. This program is based on availability only and supplies are limited.

Help us keep you and your family safe by creating good fire safety habits. Please visit us at [www.northvillemich.com/fire](http://www.northvillemich.com/fire) for more fire and life safety tips.
